

OMNIDIRECTIONAL HDTV/AM/FM ANTENNA + WIFI + 4G EXTENDER\*(AM/FM on select models only)

\*When paired with compatible

Winegard Gateway (GW-1000 or GW-PRO1)

## OPERATION

**NEXTGEN TV™ Ready**  
(ATSC 3.0)

**Run a channel scan to receive maximum programming.** A scan will find any new channels that have been added in your area, plus find any channels that have changed or moved since the last scan. Steps to perform a channel scan vary between televisions/compatible devices; below are general guidelines to follow.

- 1 Ensure the antenna power supply (wall plate) is in the **“ON” position** and the green indicator light is **illuminated**.
- 2 Using the television remote, select **MENU** and then **SETTINGS**.
- 3 Select **CHANNEL SETUP**.
- 4 Select **ANTENNA** or **AIR** depending on your TV. Make sure you are not on **CABLE**.
- 5 Select **CHANNEL SEARCH** or **CHANNEL SCAN**. Keep in mind that steps to perform a channel scan may vary. If the wording from your TV differs from the options shown, refer to your TV user manual for help.

**NOTE:** Running a channel scan is NOT the same as pressing Channel UP/DOWN on your remote.

**TIP:** To receive maximum programming and keep your channel line-up up-to-date, it is a good idea to run a channel scan monthly, anytime a channel is lost, and **anytime you change locations**.

## WINEGARD GATEWAY

GW-1000  
GW-PRO1

WINEGARD®  
FreedomGO™

NO CONTRACT 30-DAY PLANS

CERTIFIED BY AT&T, VERIZON AND T-MOBILE

The Winegard Gateway is compatible with the Winegard Air 360 Plus ONLY. It is the accompanying piece to take your Air 360 Plus to the next level in connectivity.

- Upgrade Your Air 360 Plus to a Live Hotspot for WiFi and 4G LTE – Easily access WiFi and 4G LTE networks and securely rebroadcast to all of your devices.
- Maximizes Speed & Range – Stay connected with improved speeds in remote locations where WiFi or cellular options are nonexistent or very weak.
- GPS Increases Security – Easily find your RV at a crowded campsite and monitor your RV's IoT from anywhere.
- Flexible Data Plans with Bring Your Own SIM Option – Choose between Winegard FreedomGO, AT&T, Verizon Wireless, or T-Mobile.

For more information please visit [www.winegard.com/gateway](http://www.winegard.com/gateway) or visit your local RV Dealer.

## APPROVED WINEGARD SATELLITE ANTENNAS\*

\*Only AR-360K models

DISH Playmaker, Pathway X1,  
Carryout G2+ and G3

The satellite antenna connection is recommended for Winegard domed satellite TV antennas.

The satellite products shown on this page have been tested with Keystone RV's exclusive KeyTV Plug-and-Play technology. Attempting to use with any other satellite may not work.

### INSTALLATION REQUIREMENTS:

- The satellite antenna must be installed at a minimum of 6 feet away from the Air 360 Plus.
- Coax with weatherproof connectors should be used when connecting to the satellite F-Jack on the Air 360 Plus.
- If removing a satellite antenna, the factory installed F-Jack cap should be reattached to avoid water intrusion and/or corrosion.
- Some antennas require a power inserter to be installed inside the RV between the KeyTV and the Air 360 Plus.
- The Playmaker and Pathway may require the purchase of a Winegard power inserter (Winegard Model PI-GM60) if the coax cable run to the satellite antenna exceeds our recommended length (25').
