Customer Driven Features

Paradigm, the benchmark for luxury fifth wheels!

ALLIANCE RV

Obsessed with providing the best RV ownership experience!

ONE HUNDRED PRODUCT FEATURES MAKING PARADIGM FIFTH WHEELS THE VEST VALUE FOR YOUR INVESTMENT

100

Our Goal is to provide the absolute best customer RV ownership experience.

As an independent and owner operated company obsessed with providing the best ownership experience our team is empowered to do things differently and do the right thing.

With all of us going the extra mile to do things better, Alliance RV provides superior products that look better, perform better, and last longer, all while providing you the best ownership experience.

CAMP READY PERFORMANCE AUDIT

1

We are going the extra mile to help ensure your Alliance RV is "Camp Ready". With holding tanks full, every Alliance RV hits the open road for a 15-minute "shakedown" test tow that includes bumps, turns and rapid stops. This open road test identifies any potential concerns that would have only shown up when the coach was in transit to you and your dealer. Following the test drive, we bring the coach into our dedicated Performance Audit Bay for another round of systems checks and white glove inspection. Upon a 100% successful Performance Audit, we deem the RV to truly be "Camp Ready"!

A MEANINGFUL WARRANTY

2

A WARRANTY IS ONLY AS GOOD AS THE COMPANY THAT BACKS IT.

Every Alliance RV is generously backed with a 3-year limited structural and 1-year limited base warranty. Further, what really makes Alliance RV stand out is our willingness to communicate our guiding principle of **"Do The Right Thing"**.

We understand there is not a one size fits all solution when it comes to your warranty and service needs. Our ability to keep open lines of communication with both you and your Alliance dealer will help us find a creative service solution for your specific case. Add to this the unique service and warranty programs we have implemented for our Alliance dealers to streamline the approval process and parts delivery times… all towards the mission of getting our Alliance RV owners back on the road faster and enhancing your RV ownership experience. If you ever want to speak with one of our customer service representatives, please don't hesitate to contact us at (574) 226-0140.

3

Full-time RVing won't void your Alliance RV warranty*
Many manufacturers incorporate language that voids the warranty in the case of full time RVing.

*Additional equipment may be necessary in certain climates or conditions for full time use.

SOLID FOUNDATION

Next generation advanced frame technology with heavy duty Performance Running Gear. Redesigned from the ground up, the Benchmark Chassis features solid steel 10" I-beam main rails with a 2" torsion tube welded where the running gear attaches, drop frame storage area, flush upper deck design, reinforced goose neck area and a Rota-Flex pin box.

BENCHMARK CHASSIS MADE IN USA

4 SPACE SAVER UPPER DECK

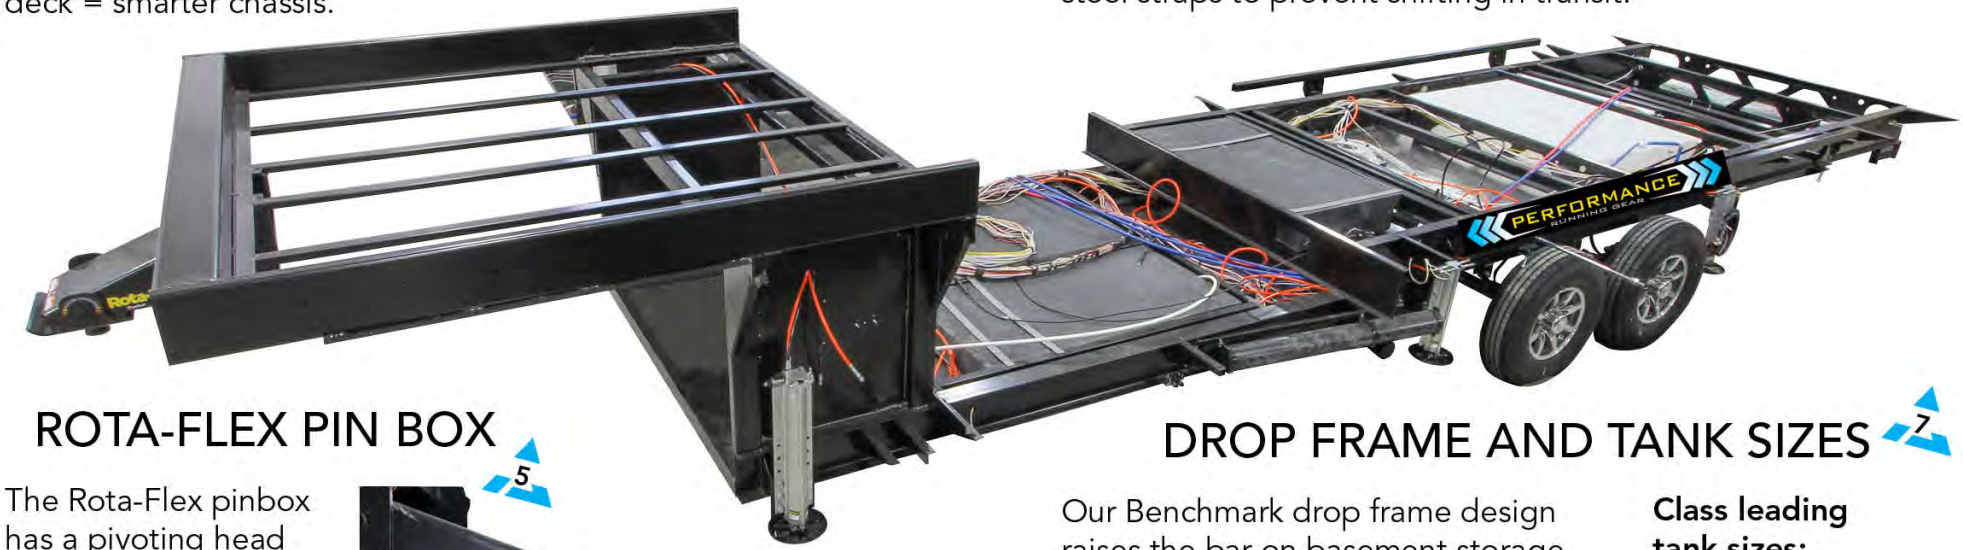
Engineers were able to redesign the upper deck to be stronger, while flattening the deck to eliminate the toe breaker steps typically found in this space. Stronger design + flush upper deck = smarter chassis.

RUN FULL HOLDING TANKS

We know its not always possible to empty the holding tanks before hitting the road. We've all seen tanks fall out of the bottom of an RV and we have made it a priority minimize this potential in an Alliance RV.

6

Our fresh tanks are encased in a robust steel cage. Waste tanks are molded to rest on full length steel Z rails and secured with steel straps to prevent shifting in transit.



ROTA-FLEX PIN BOX

5

The Rota-Flex pinbox has a pivoting head with built in rubber compound to reduce chucking and absorb road shock while towing

DROP FRAME AND TANK SIZES

7

Our Benchmark drop frame design raises the bar on basement storage, increasing the volume of the storage compartment.

Class leading tank sizes:

98 Gal. Fresh
106 Gal. Gray
53 or 106 Gal. Black*

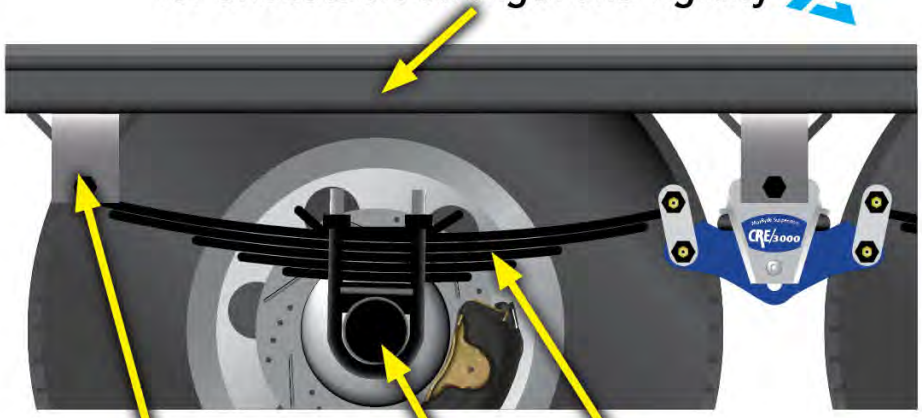
*Model specific

RUNNING GEAR REDEFINED

We listened to RVers to determine the good, bad, and ugly from the people who actually own and frequently use RVs. Unanimously, it was clear that tire blow-outs, insufficient springs, thin shackles, and spring hanger failures was a critical area that needed to be addressed.

Building on the latest advancement in chassis design, we have strategically selected our Performance Running Gear system to address the common failures too often seen at this pricepoint.

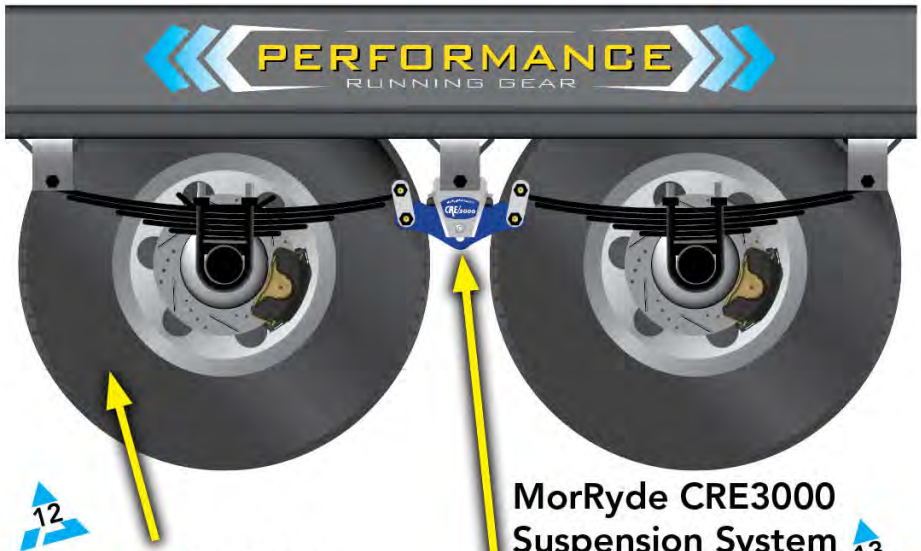
2" Torsion Tube welded to the I-beam for unbeatable strength and rigidity 8



Spring Hangers with V-Bracket Reinforcement 9

Dexter Heavy Duty 4K Springs (not typical 3.5K) 10

Dexter 7,000 Lb. AXLES 11



Super G- 4,400 Lb. Rated Tires 12

Our 14-ply, steel belted tires are rated 320 lbs. higher than the typical G-range tires used by many competitors.

Tires are covered by Lionshead (12) month No Excuses Guarantee program and a (5) year limited warranty against manufacturers defects. See Lionshead product warranty policy for details.

LIONSHEAD
SPECIALTY TIRE & WHEEL, LLC.

MorRyde CRE3000 Suspension System 13

MorRyde Heavy Duty ½" Thick Shackles and Wet Bolt Kit 14

Theirs

Ours

FACTORY INSTALLED DISK BRAKE (OPTION) 15

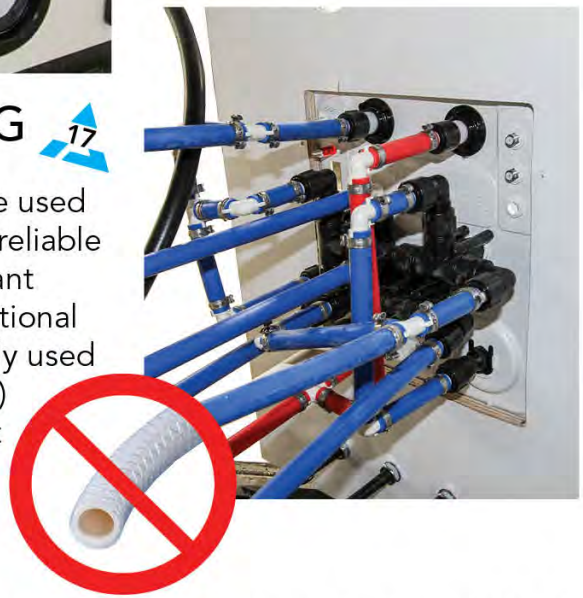
ALL-IN-ONE UTILITY CENTER 16

The Alliance Utility Center brings vital connections to one convenient location for management of water hookups, coaxial connections, battery shut off, and tank pulls. Additionally there is a light for when the sun is down, a quick connect sprayer to wash up after dealing with the business end, and a 110V outlet for your convenience.

PEX PLUMBING 17

Cross-linked polyethylene (PEX)

Real PEX water lines are used throughout to create a reliable and temperature resistant plumbing system. Traditional braided lines (commonly used by some manufacturers) provide an inferior fit at the connection points, making them more susceptible to water leaks.



SHUT-OFF VALVES AT PLUMBING FIXTURES

Don't let a leaky toilet or dripping sink shut down the water supply to your whole coach. Simply shut off the dedicated valve to the toilet or sink and address the issue at your leisure. 18

MAMMOTH BASEMENT STORAGE 19

Alliance Basement storage compartments are insulated, heated, illuminated, and finished with a durable Congoleum floor and automotive trunk carpet to protect your cargo. We have also engineered our plumbing out of the way so it is not obstructing the pass through storage area.

SLAM LATCH BAGGAGE DOORS 20

Slam latches and automotive bulb seals keep the baggage compartments tight, dry, and secured. Large handles for easy opening and magnetic stays make for convenient access to your gear.

PAINTED FRONT CAP

We paint our front cap to match the sidewall color.

The automotive paint is durable and long lasting, looks fantastic, and protects the value of your investment.

AUTOMOTIVE VINYL GRAPHICS WARRANTY

3M

Paradigm features 3M Scotchcal™ Graphic Film vinyl graphics that are vibrant, durable and long lasting. Our 3M graphics have minimal shrinkage and the ability to withstand extreme temperatures. Your exterior graphics will look great for years!

DIAMOND EMBOSSED SKIRT

Attention to detail sets Paradigm apart from the rest. Our skirt metal has an attractive embossed diamond pattern where most others are smooth and lack style.

DUAL 30 POUND LP

Extend your RV stay a little longer with 60 pounds of LP in two 30 pound tanks located on both sides of the coach for even weight distribution and equipped with an auto changeover valve. For those wanting even more, dual 40 pound tanks will fit in these compartments.

SIX POINT AUTO LEVEL

Six point hydraulic auto leveling is Faster, Stronger, Quieter, and makes short work of leveling your coach so you can get to relaxing. We mount the control panel in a compartment on the off-door side by the front jacks.

OVERSIZED AWNINGS

26

Alliance maximizes the usability of your patio with huge awnings made of dark material that blocks more sun.

These awning arms don't have the traditional wingnut adjustment. A friction hinge and gas strut provide easy, one handed adjustments and act as a shock absorber should a wind gust catch the awning.

Includes a manual override in case of no power.

AWNING PATIO LED LIGHTING

27

Enjoy your patio lights with or without the awning out.

Our patio awning LED lighting is mounted to the sidewall so you don't have to run your awning out all the way to reveal the lights.

2" REAR ACCESSORY HITCH

28

For your convenience we added a 2" receiver style, rear accessory hitch with a 300 pound hitch capacity, 3,000 pound tow capacity and a four pin connector for taillights.

PVC ROOF

29

We protect your investment from the top down with a seamless PVC roof material that is more puncture resistant than the TPO used by many others. PVC is ultra bright white and more solar reflective to help keep your unit cool. Last but not least, in the unlikely event of a roof tear, it can be repaired simply with a patch of the same PVC material and PVC cement from your local hardware store.

HEATED AND ENCLOSED UNDERBELLY WITH TANK PADS

30

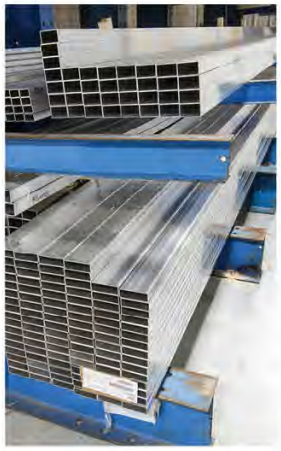
Extend your RVing season into the cooler months with a heated and enclosed underbelly.

12-volt tank heat pads are standard on all fresh, gray and black tanks.

DOUBLE INSULATED ROOF FIBERGLASS AND REFLECTIVE

31

When it comes to insulation we install the best of both schools of thought with traditional fiberglass batten insulation and a seamless layer of reflective mylar barrier for maximum efficiency in hot and cold climates.



LAMINATED WALLS

32

A reliable sidewall begins with a durable frame made of high grade aluminum that is professionally welded and reinforced at stress points. Block foam insulation fills all the voids in the framework and it is all sandwiched between an AZDEL composite substrate and fiberglass on the outside and interior wallboard on the inside. The entire wall assembly is laminated and cured to perfection for the ultimate sidewall.

AZDEL ONBOARD™

Alliance sidewalls, rear wall, slide face and end walls are all laminated.

- 50% Lighter
- No Rot, Mold,Warping, or Delamination
- 2X Insulation Value
- Odorless, NO Formaldehyde
- Quieter RVs
- No Impact to the Rainforest
- Unaffected by Humidity and Temperature Changes
- Long Life
- Made in USA

HIGH GLOSS FIBERGLASS EXTERIOR

33

Just as the Indiana sun was setting here at the factory, a unit was awaiting its turn to go through the performance audit. It was a spectacular sight to see the setting sun reflecting in the high gloss fiberglass on the south west side of the factory. This high gloss will last for years and keep your coach looking spectacular for many sunsets to come.

MS POLYMER SEALANT

34

Traditionally RVs are sealed with silicone. Silicone is a fine sealant but it has weaknesses. Nothing sticks to silicone, not even more silicone. That said, when it is time for maintenance of your seals you have to dig out and remove all the old silicone getting down to clean surfaces before resealing your RV. Silicone also shrinks over time leaving your RV vulnerable to leaking that can cause expensive water damage.

Alliance combats these problems by using an MS Polymer sealant. MS Polymer is completely solvent free and is composed of 100% solids that will not shrink. It dries to the touch quickly and cures in wet, dry, hot and cold conditions for a superior seal every time. Best of all, MS Polymer adheres to itself making seal maintenance much easier.

PATIO SIDE SPRAY PORT

35

A convenient quick connect coil hose sprayer is included that can hook up on the patio side of the coach for rinsing off feet, pets, and even grandkids before entering. A second spray port is located on the off-door side in the utility center.

The hose stores neatly in the compartment and is resistant to tangles and kinks.

The coil hose stretches approximately eight feet.

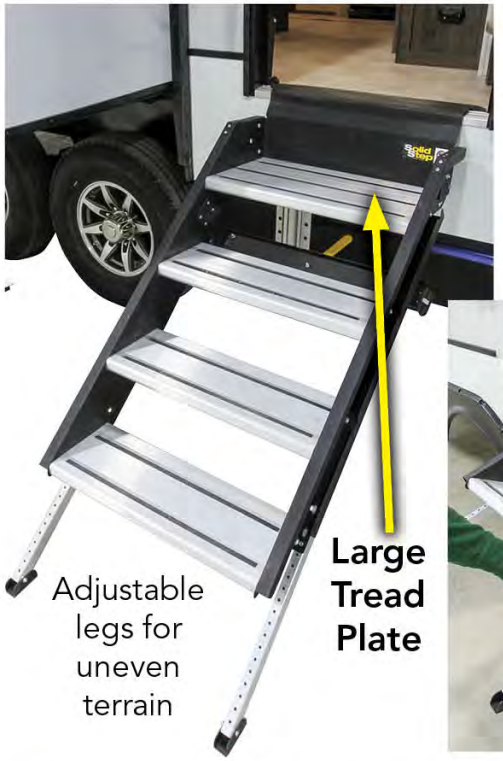
PATIO SIDE LP QUICK CONNECT

36

No need for all the little portable LP cylinders when you have 60 pounds on-board. With a patio side LP hookup you can conveniently use your camp grill or patio heater to dine and entertain.

SOLID STEP ENTRY

37



Solid Step entry is solid unlike traditional fold-away steps that are flimsy and bouncy.

One finger is all it takes to lift the solid steps up to stow away for travel

UNDER-FRAME PATIO LIGHTING

38

Patio side under-frame LED lighting adds a nice touch to your patio experience, lighting the ground up for your enjoyment and safety. Not to mention, it just looks cool!

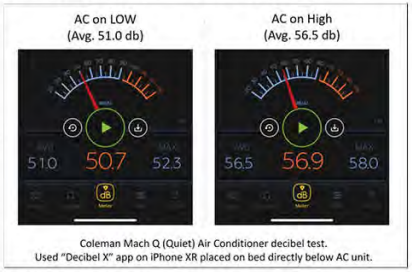
39 TRIPLE A/C STANDARD

Triple 13,500 BTU, ultra quiet, independently controlled direct flow A/C units maximize cooling capacity.

ULTRA QUIET DUCTLESS DESIGN 40

Ducts reduce cooling efficiency. Our ductless A/Cs deliver 100% of the cold air produced by the A/C units directly into the RV *(with the exception of the third A/C where there are walls in the way and we duct the bare minimum length to cool the bathroom.)* Our system is very quiet, using the latest Mach Q series Non Ducted air conditioners. Operating at only 51-57 decibels, you can easily hold a conversation and enjoy TV. Each A/C unit only draws 10.4 Amps on high.

2 A/C's easily run on 30 Amp service
3 A/C's easily run on 50 Amp service



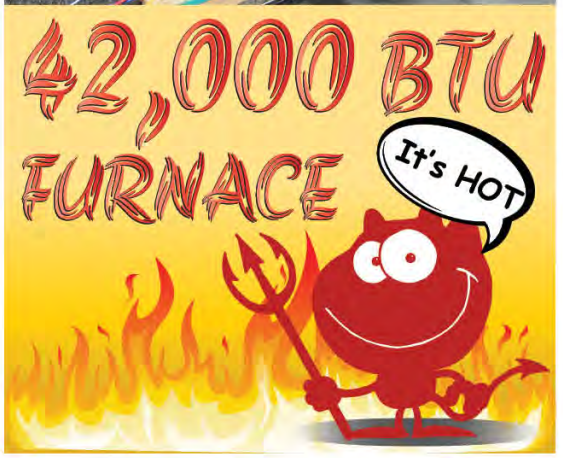
INDIVIDUALLY CONTROLLED 41

Have it your way! All three A/C units are individually controlled offering an infinite combination of settings for maximum comfort and convenience.

42,000 BTU FURNACE 42

42,000 BTUs of forced air heat runs through flex ducts connected to formed ducts in the floor. Our heating ducts are designed to be as short as possible to minimize heat loss experienced in long duct runs and maximize comfort throughout the coach.

There are also dedicated heat vents into the basement and underbelly to keep the tanks and your gear cozy warm in the cooler seasons.



ELECTRIC FIREPLACE 43

For the spring and fall days when the temperature does not justify firing up the furnace, the 5,000 BTU fireplace takes the chill out of the room without using LP. Fully adjustable, you can also enjoy the ambiance of the fireplace without heating up the room.

44

You spoke, we listened. Vinyl flooring throughout (No Carpet)

ALUMINUM FRAMED AND INSULATED FLOOR WITH SEAMLESS 5/8" **Truboard** DECKING

45

Superior floor construction begins with a lightweight rigid aluminum frame that is insulated with fiberglass and a reflective foil barrier, then a seamless sheet of 5/8" **Truboard** is secured on top and the bottom wrapped in a durable woven poly stranded material.

FLUSH FLOOR KITCHEN SLIDE

46

No more raised slideroom floor in the kitchen to stub your toes on.

No more awkward footing or leaning way over to prepare your food.

Brand X's raised floor kitchen slide

NO FLOOR VENTS - MAIN FLOOR

47

ATRIUM WINDOWS

48

Alliance has bigger windows and more of them than anyone else. Enjoy a High Definition view of your surroundings.

CROSS VENTILATION

49

Get more fresh air inside! Bedroom and living areas have strategically placed Atrium windows that open wide to create excellent cross ventilation in the living area and bedroom.

HARDWOOD WINDOW TRIM

50

Real hardwood valences and window trim in the main living areas set a luxurious tone. The slim profile of our side and lower window trim also maximizes the functional space at the dinette and loveseat. Most manufacturers use a lambrequin leg that sticks out and can get in the way.

MCD NIGHT SHADES

51

Whether you want to block out the bright light of day or have some privacy in the night hours, trust MCD roller shades for quality and ease of operation.

MAXXFAN

52

The kitchen and bath are both equipped with MaxxFan roof vents standard. These high powered fans move air at a high rate of 900 cubic feet per minute and will close down at the first sign of rain with the built in rain sensor.

53

SOFT CLOSE CABINET DOORS

Not only do hidden soft close hinges look great, they are very functional. Soft close hinges prevent slamming which can weaken door joints and pull screws loose from the stiles. Soft close hinges close tightly in conjunction with magnetic latches and they stay closed in transit keeping your gear in the cabinet where it belongs.

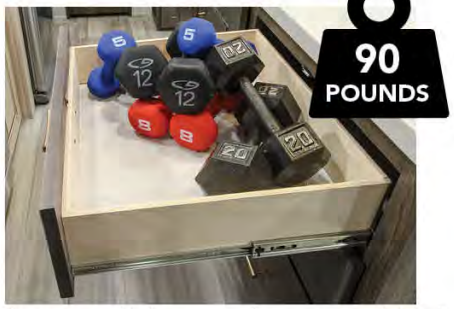
SOFT CLOSE DRAWER GLIDES

54

A residential luxury worth having. Similar to cabinet doors, slammed drawers weaken over time and can come apart unexpectedly.

REINFORCED DRAWER BOTTOMS

55



We use heavy duty ball bearing drawer glides, and as an added measure of quality and strength, we reinforce to bottom of every drawer preventing the silverware from ending up in the next drawer down. We put 90 pounds of exercise weights in a drawer to demonstrate our durability. (Don't try this in competitor's flimsy drawers.)

56

INNOVATIVE STORAGE SOLUTIONS

Leave no wasted space anywhere!

Creative use of space makes the most of every square inch.

< Flip Top End Tables

Pull Out Fireplace >

Extra storage for spare blankets, pillows or anything.
That's a lot of space that would normally be wasted!

57

Shoe Storage >

Under step shoe storage. As you walk in the door, what better place to take your shoes off and have a place to stash them out of the way yet handy for when your ready to go back outside again.

58

RESIDENTIAL MICROWAVE

60

Our over-the-range INSIGNIA microwave is a full size residential appliance at 1.6 cubic feet and 950 watts.

- 10 auto-cook settings
- 10 power levels
- 30 second express cook
- Energy saving Eco mode
- Two speed exhaust fan
- Removable rack
- Task light
- 12.4" glass turntable
- Child lock

RESIDENTIAL RANGE & OVEN

59

It has been called the Thanksgiving Dinner Oven by customers at RV shows because you can cook the turkey, stuffing and potatoes in this INSIGNIA 3.7 cubic foot residential oven all at once. (Twice the size of most RV ovens)

High powered burners are sure to outperform any traditional RV cook top at any altitude.

3,500 BTU Right Rear,
6,000 BTU Left Rear,
9,000 BTU Left Front,
12,000 BTU Right Front

Last but not least there is cookie sheet and pan storage in the bottom pull out drawer.

STAINLESS STEEL FARM SINK

61

This customer driven feature is sure to please anyone using the kitchen. The residential sized kitchen sink makes it easy to clean even the biggest pots and pans. A convenient roll out slotted drying rack is included. The perimeter of the sink features an integrated LED light strip that also lights up the cabinet below.

18 CU. FT. RV OR RESIDENTIAL REFRIGERATOR - YOU CHOOSE!

62

FLOATING, HARDWOOD, LIVE EDGE DINETTE TABLE

63

No more banging your knees on table legs or a pedestal because there isn't one. The table itself is a hardwood, live edge top similar to the ones pictured in architectural and other interior design magazines. There is also a matching live edge wooden light fixture above the dinette table.

SMART DINETTE CHAIRS

64

Two of them fold for easy storage under the bed. Two dinette chairs have flip up storage in the seat.

KENSINGTON COLLECTION FURNITURE

65

Our Kensington furniture features a high quality polyurethane based fabric from the RICHLOOM Tough Collection. This is a non-bonded material that is resistant to the cracking and peeling often seen with inferior bonded fabrics. This fabric carries an extended RICHLOOM two year warranty.

Kensington

ALL-IN-ONE LOVESEAT/THEATER SEAT/RECLINER

66

Maximizing functionality and comfort in a small space requires creative thinking. This combo is the best of both worlds giving you the functionality of a loveseat

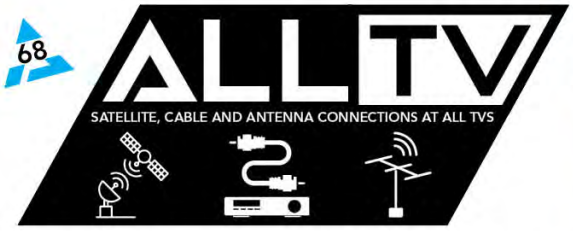
and the comfort of a dual power reclining theater seat when you want it.

ULTRA HD SMART TVS

67

Living rooms and bedrooms both feature name brand ultra HD SMART TVs for the best entertainment experience.
Take your streaming subscriptions on the road.

68



At Alliance we have made the TV hookup experience simple and easy to use. ALLTV is designed to bring satellite, cable and antenna connections to all the TV locations throughout your RV.

BLUETOOTH ENTERTAINMENT SYSTEM

69

AM/FM, CD, DVD, USB, Bluetooth entertainment system brings the best of modern entertainment to your fingertips. For even more control, download the Jensen app to control your system from a smart phone or tablet, answer phone calls, stream media from your phone to the TV, play media from a flash drive and more.

70

USB CHARGING PORTS

With all the cell phones, tablets, earbuds, GPS units, and other electronic devices you can't have too many USB charge ports. 2x2x2 is a phrase you might hear in an Alliance RV referring to 2 USBs in the end tables, 2 USBs in the theater seats and 2 USBs in the bedroom nightstands.

Remember your ABCs
Always Be Charging

DIMMABLE LED FLUSH CAN LIGHTING

71

RV LED lighting is very bright and can be blinding. Alliance offers a twenty first century solution. A dimmer switch gives you control of your lighting in the living area and bedroom. It is a simple solution that most RV makers neglect to address.

Our LED ceiling lights are a flush mount can style like what you see in todays homes.

CROWN AND ISLAND LED ACCENT LIGHTING

72

Alliance features LED accent lighting built into the crown molding, kitchen soffit, kitchen sink, select cabinet backs, and even the bathroom mirror. Create an appealing indirect glow that looks great day or night. Pendants with heavy glass globes swing and rip out of the ceiling when the trailer makes an abrupt stop. Our lightweight pendant lights don't have the mass and inertia to get moving and rip out at abrupt stops.

MOTION DETECTING LIGHTING

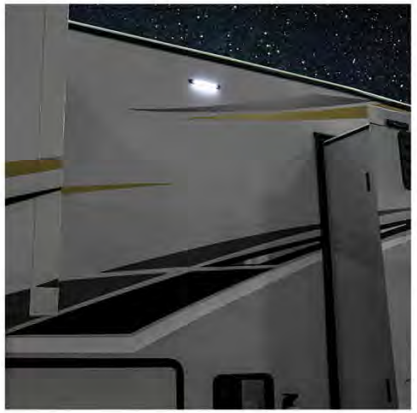
73

Another great feature for convenience and safety. Alliance features motion detecting lighting where you might have your hands full and can't easily get to a switch or it's just dark and you want your path illuminated for safety. We install motion detecting lighting at the steps to the upper deck, in the pantry, and in the baggage compartments.

LED BACKLIT MIRRORS

Often seen in expensive hotels and luxurious residential homes, backlit mirrors are a great night light or just a pleasing indirect accent light to set your bathroom apart from the rest.

74



OFF DOOR SIDE SECURITY LIGHT

75

Added security and peace of mind being able to see at night on the off door side of your unit. The off door side security light is on an independent switch.

SMART WIRE

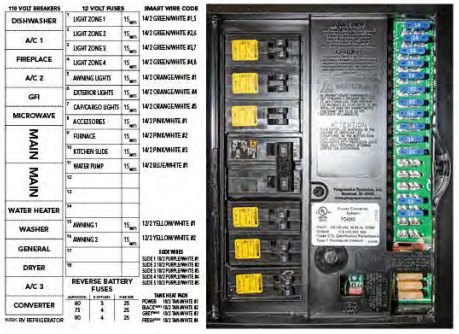
COLOR/NUMBER CODED

Ever wonder which wires run where? We are not afraid to show you what is behind the covers. In fact, we are proud of the extra effort put into keeping the wiring and plumbing neat and organized. This extra effort helps prevent problems and saves hours on diagnosing trouble down the way. Color coded and numbered wiring makes for quicker repairs and simplifies do-it-yourself projects.

Most RV wiring looks like spaghetti. All the wires look the same, no idea where they run and all tangled up in a jumbled mess.

CONVENIENTLY LOCATED AND CLEARLY MARKED BREAKER/FUSE BOX

We position our breaker/fuse boxes where you can get to them easily and clearly mark every breaker and fuse.
We also provide a smart wire code guide so you can easily identify and trace wiring back to the source.



CONTROL CENTER

Generally located near the entrance, our control center is easy to read and use. Every switch is marked clearly and organized logically.

INDIVIDUALLY SWITCHED SLIDE OUTS

No more waiting for all the slides to run out in sequence to get to the one you really want. Say you're at a rest stop and you just want to run out one slide so you can get to the bedroom, bathroom, or refrigerator. No problem, simply run that slide out and only as far as you need.

KING BED STANDARD 80

Sleep like Royalty on our standard King size Serta mattress. Walk around the bed to make it easily and get in and out on both sides like you do at home in your bedroom.
(Optional Queen bed - available)

OVERHEAD BED WINDOW 81

Many RV bedrooms are dark and feel confined. We install a window above the headboard to let in light and open the room up to a bright, spacious feel. You can even open the window on those cool summer nights.

PADDED HEADBOARD 82

Watching TV or reading a good book, the padded headboard is a comfortable alternative to hard wooden headboards that serve no purpose. Just another example of Alliance listening to customers and implementing the feedback.

CPAP FRIENDLY 83

These days so many of us have CPAP machines and we need to use them at home and on the road. Alliance makes the effort to be CPAP friendly offering outlets on all the night stands and on some models, where space allows, a deep shelf compartment and outlet to accommodate your CPAP machine.

UNDER-BED STORAGE 84

Huge under-bed storage compartment with gas struts to assist in opening 18.75 cubic feet of finished storage space. Perfect for the folding dinette chars, extra blankets, sleeping bags or totes full of gear you want access to without going outside to the basement compartments.

DEEP BEDROOM DRESSERS 85

When it comes to storage, size does matter. Many RV dressers have lots of drawers but they are so shallow you can't fit much of anything in them. Alliance dresser drawers are deep front to back and top to bottom like a residential dresser. You can keep real adult size clothes in these drawers.

All the dresser drawers are mounted on heavy duty ball bearing drawer glides with soft close and are reinforced on the underside for maximum usability.

DRESSER TOP HIDDEN STORAGE

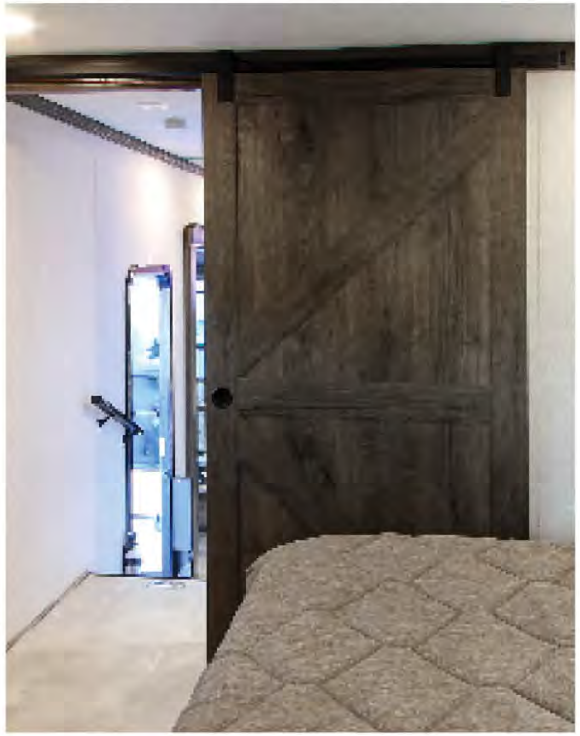
Hidden in the dresser, is a place to keep your jewelry, watch, wallet, or anything you want out of sight but still handy. The dresser top is only half lid, the other half is stationary so you can keep some things on top and still access the hidden compartment.

PERSONAL READING LIGHTS 87

Above the headboard are ceiling mounted, LED reading lights. Each light is individually pushbutton switched and easy to reach.

RUSTIC SLIDING BARN DOORS 88

In an RV, every square inch of floorspace counts. Sliding barn doors offer the privacy of a solid swinging door, taking up half the floorspace of a pocket door since there isn't a second wall to surround it and no swinging door to get in the way... It is the best of both worlds and they look great. Heavy duty rolling hardware and a steel track make for smooth operation while tie-backs keep the door in place during transit.



BEDROOM BENCH SEAT

89

People don't make good flamingos and flamingos don't wear shoes...
What does this have to do with RVing you ask; well, most RV bedroom suites don't have a seat or enough room to dress and put on your shoes. So you have to stand on one foot and struggle to get your shoe on the other foot while your head turns red. Hence, people don't make good flamingos...
And, well, the obvious, flamingos don't wear shoes.
Our bedrooms all feature some sort of seat, some with storage, all with a padded seat cushion and located with room to move around and get ready for the day.

FLUSH FLOOR UPPER DECK ALL THE WAY TO THE CLOSET

90

One of the benefits of the Benchmark Chassis is the flush floor upper deck all the way up into the front closet. No more stubbed toes in the middle of night. When every square inch of storage counts, this added space in the closet is a bonus. Again what you don't see is often the real story. The structure below that makes this feature possible, also adds strength to the upper deck.

BENCHMARK CHASSIS MADE IN USA

HUGE CLOSETS

91

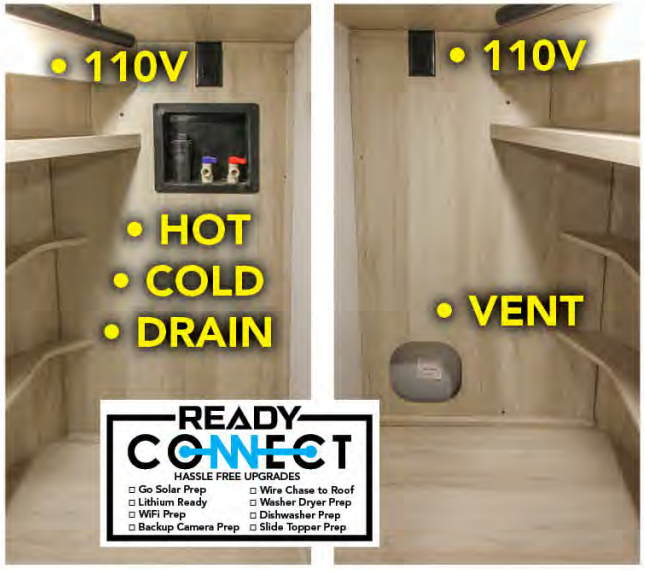
Could there be such a thing as too much closet? Face it, we all have lots of stuff and most RVs simply do not provide much closet space. Paradigm fifth wheels have some of the biggest closets on the market with hanging storage, shelf storage, cubbies, and even hampers.

*Closets Vary by Model.

Left Side **Front** **Right Side**

WASHER DRYER PREP

92



We make it easy to add a washer and dryer with dedicated locations pre-engineered to accept the washer and dryer with 110 volt outlets, color coded hot and cold water hookups, drain connection and outside vent location all ready for a quick and easy upgrade.

48" - 60" RESIDENTIAL SHOWERS

93

No more tiny Neo-Angle showers! Alliance residential showers are huge and packed with great features. From the ground up, the reinforced fiberglass base is solid and does not flex under your feet breaking the seal around the drain. The shower surround is seamless material that is mold and stain resistant. Easy clean: wipe down with a soft cloth and mild detergent. The shower head is mounted high enough for the tall folks to enjoy without stooping down.

TRIPLE GLASS SLIDING SHOWER DOOR

94

This space saving design allows you to open the shower up wide for easy and safe entry without big swinging doors getting in the way and dripping all over the floor. A simple travel lock keeps the doors secure while on the road. The anodized aluminum frame will not rust or corrode and keep looking great for years to come.

TEAK WOOD SHOWER SEAT

95

No shower is complete without a seat! We raised the bar here and installed a flip up, teak seat that is anchored to substantial structure in the wall for a solid seat you can trust and enjoy. Teak wood is a luxurious species of wood used in marine applications for its resistance to rot in wet environments. The seat flips up out of the way if you need a little more standing room.

SOFT CLOSE PORCELAIN TOILET

96

The Dometic RV toilet may actually be better than the common residential bowl. With its powerful bowl-clearing flush, modern rimless design, full-size ceramic bowl and home-like seat height, the Dometic 310 toilet provides unmatched performance. The hygienic hands-free foot pedal with adjustable water level simultaneously help conserve water while providing a robust flush. The full-size ceramic bowl and seat height deliver comfort while living mobile. The watertight flush ball system maintains water in the bowl at all times, meaning any unpleasant odors are kept in the waste holding tank. Perhaps best of all,with a **soft close seat and lid** there's no accidental slamming shut in the middle of the night to wake anyone up. The seat is also enameled for easy cleaning and solid in design without the honeycomb under most RV toilets that collects filth and is hard to clean.

LARGE AND DEEP BATHROOM SINK

97

Tired of bathroom sinks that are barely the size of a finger bowl? Finally a bathroom sink that is usable. Alliance bathrooms showcase a modern style stainless steel sink that is deep with a real residential faucet that is high enough to get your hands under for a great wash. The stainless steel is durable and easy to maintain.

EPOXY COUNTER TOP

98

EPOXY POURED TOPS

Where weight is a consideration, epoxy poured tops are a fantastic alternative to solid surface or pressed tops. A lightweight substrate in a variety of colors and patterns is coated with an industrial epoxy with a high gloss luxurious finish. Common in restaurants and bars, epoxy tops are extremely durable and easy to clean with a soft cloth and mild detergent..

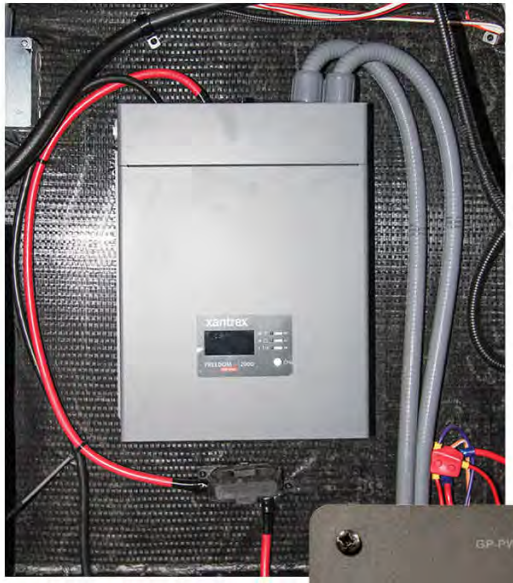
SOLAR OPTION - DONE RIGHT

99

What is the point of a solar package that does not grow with your needs and that you have to replace major components to upgrade. Some solar options in the industry are a total waste of money. Alliance RV offers a Go Power Solar package done right!

- 190 watt solar panel
- 30 amp controller
- 2000 watt inverter
- Lithium ready components

Additional panels and batteries can be added later to increase capacity without having to rewire and replace components.



PREPPED FOR THE EIGHT MOST COMMON UPGRADES

We surveyed thousands of RV owners to learn the good, bad, and ugly of owners' experiences and a common issue was the difficulty of upgrading later. Not everyone wants to buy every option available when they buy a new RV and needs can change. Upgrades become a big hassle if not properly prepped. We identified the eight most common upgrades after the sale and made them as easy as possible to add later.

Product information is as accurate as possible as of the date of publication of this brochure. Alliance RV is commitment to continuous product improvement thus - floorplans, materials, components, features, measurements, specifications, options, etc. are subject to change at any time without notice or obligation. Certain conditions may require additional equipment. Advertising and marketing Photography may show optional equipment or props used for photography purposes only.

Alliance publishes approximate base weight of the trailer without optional equipment included. Optional equipment will impact the weight of the trailer. Please locate the weight sticker attached to the trailer you are considering for the most accurate trailer weight.

Tow Vehicle Caution: Retail owners of Alliance recreational vehicles are solely responsible for the selection and proper use of tow vehicles. All customers should consult with a motor vehicle manufacturer or their dealer concerning the purchase and use of suitable tow vehicles for Alliance products. Alliance disclaims any liability or damages suffered as a result of the selection, operation, use or misuse of a tow vehicle. Alliance's limited warranty does not cover damage to the recreational vehicle or the tow vehicle as a result of the selection of the tow vehicle.
